Bartender is an acoustic trio formed in 2006 by Gabriele "Svedonio" Tardiolo, David Tordi and Valerio Bellocchio. Six hands, three instruments and three voices with a full band sound: this is the challenge that brought the band to create a unique and vibrant sound, as well as a diversified and finely arranged repertoire.

The primary element of the band's research and of the "bartendersound" is the approach to each song focusing on rhythm and harmony. The mix of guitars (and a variety of string instruments such as lap steel, banjo, bouzouki, and mandolin) replaces the lack of a traditional rhythmic section (bass and drums) and provides a direct and understandable music language to the audience. Each of Bartender's shows are entertaining and always interactive with the crowd.

Over the years Bartender has achieved many goals, such as collaborating with important artists, playing many live festival concerts and events throughout Italy and abroad, TV appearances on Rai channels (Serenio Variabile), Sky (Sanremo Doc), HGTV (House Hunters International on American network). The band also played at Casa Sanremo as a special guest each night of the event and on the Red Carpet of the Ariston Theater, during the 2013 Italian Music Festival.

Bartender is a versatile band that has been performing for private events, weddings, ceremonies all over central Italy for years. The band's experience provides a unique ability to always fulfill the needs of any event, whether it is a formal wedding or a wild party. The song set-list Bartender plays has a high quality and wide range of genres that people of all ages and backgrounds can enjoy listening with a drink, chatting or dancing all evening.

Bartender has performed at wedding receptions all over Italy in historic properties, villas, castles, and restaurants. Always providing an excellent professional show and entertainment.
